Species

Hermit Thrush [Catharus guttatus]

Eastern Towhee [Pipilo erythrophthalmus]

Rusty Blackbird [Euphagus carolinus]

Special Aspects

Heavier snow fall this December plus frozen lakes on the count day reduced waterfowl on the count, (Canada geese count dropped 2100 from last year) . Rain and warm weather on the preceding days brought in summer species giving us high robin and starling numbers and new birds for the count list.
